Public Preview of PowerShell in Azure Functions 2.x

Joey

April 29th, 2019

Over the last six months, we've been hard at work integrating PowerShell Core with Azure Functions 2.x. Today, I'm happy to announce that we're releasing public preview of PowerShell support for Azure Functions 2.x for Windows (Consumption, Premium, and App Service pricing plans).

Advantages of Azure Functions

Pay for what you use

No Infrastructure to manage

No maintenance of servers

Can be placed in existing subscriptions

Simplify code writing

What are we trying to solve?

RE-USING EXISTING SKILLS
