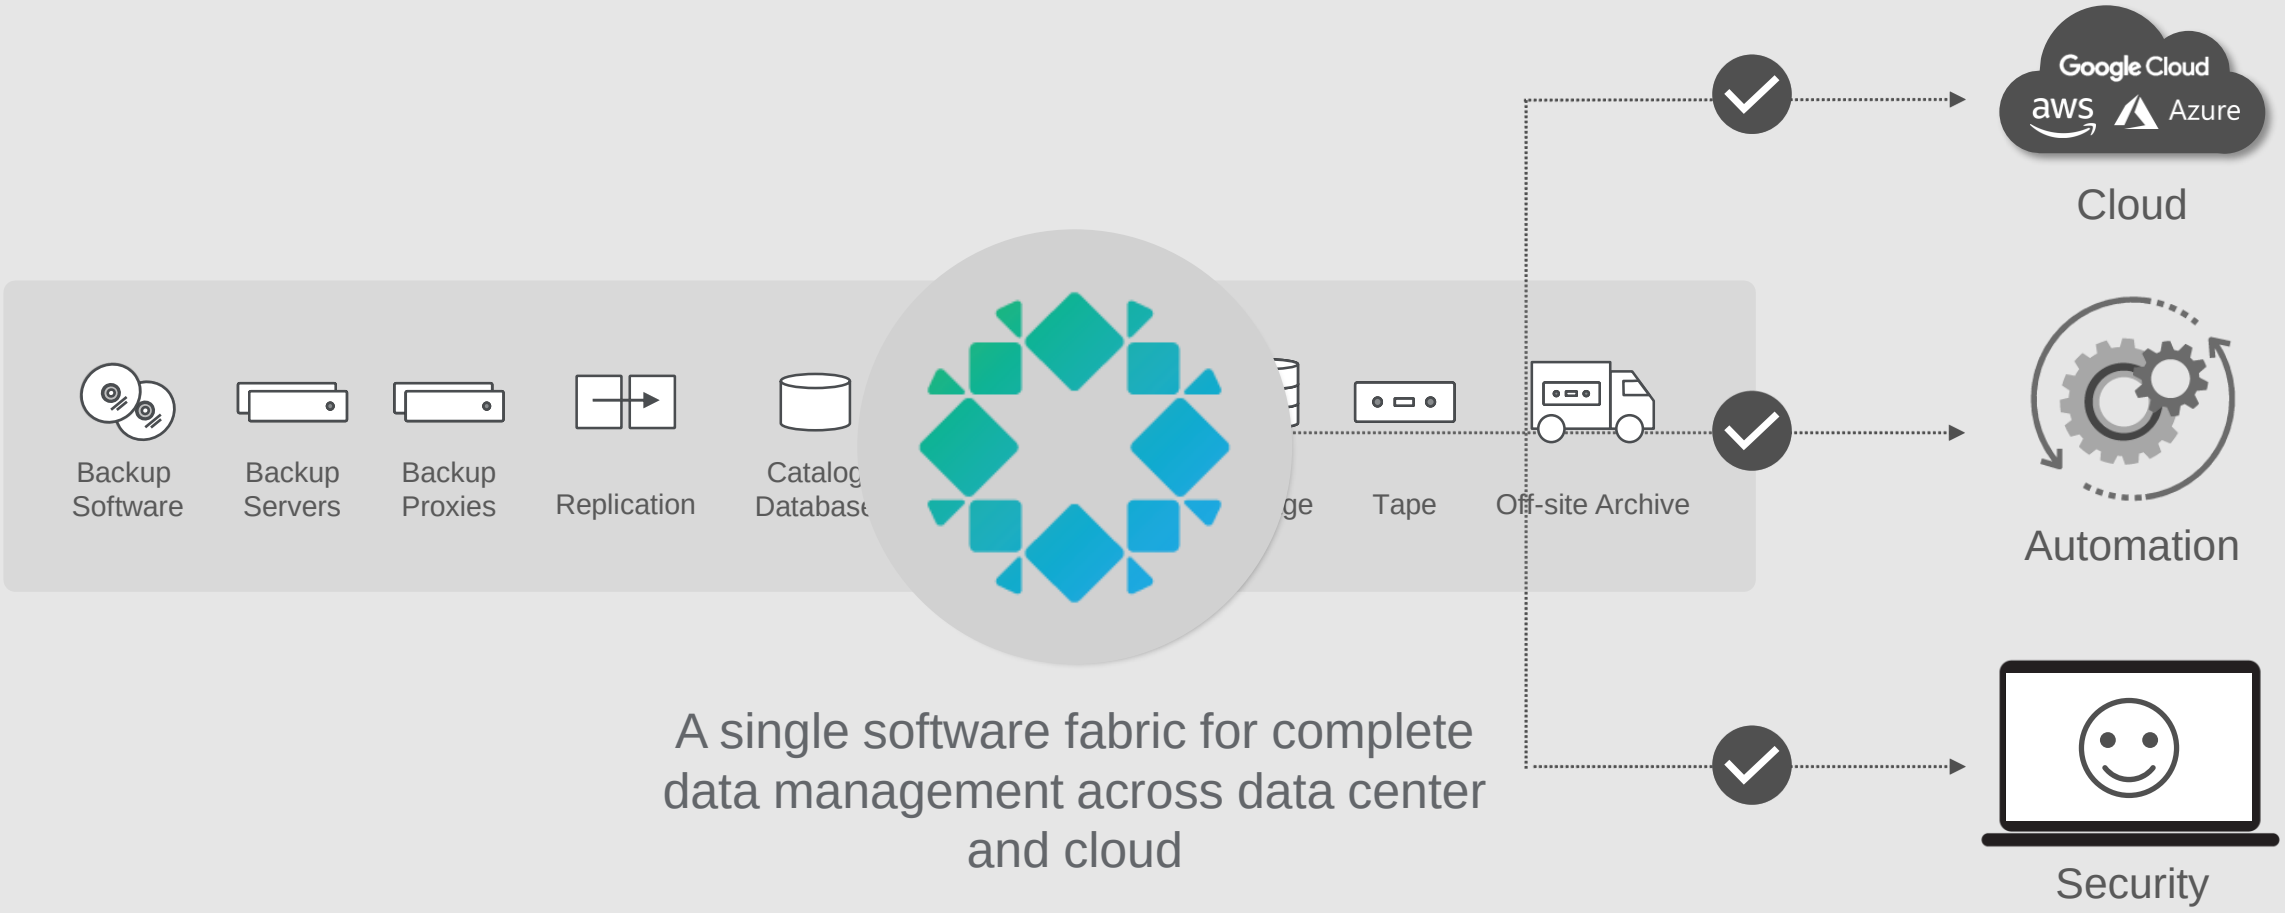
Complete Enterprise Data Management



A single software fabric for complete data management across data center and cloud

Rapid Innovation and Consistent Recognition

2015

- v1.0 — Cloud backup
- v2.0 — Cloud replication / DR

2016

- v2.1 — Auto-protect
- v2.2 — Security & scale
- v2.3 — Object store expansion
- v3.0 — Physical & edge

2017

- v3.1 — Rich visual reporting
- v3.2 — Cloud Cluster
- v4.0 — All workloads, CloudOn

2018

- v4.1 — All clouds
- Polaris — SaaS platform + global mgmt
- v4.2 — Enterprise hybrid cloud
- Radar — Ransomware recovery / ML
- v5.0 — Oracle Live Mount, O365

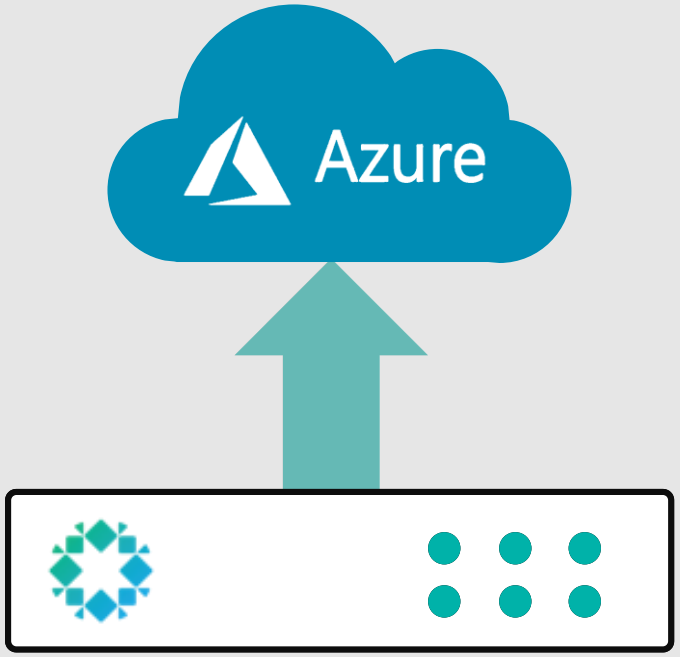
Rubrik Accelerator for Microsoft Azure



Everything you need to get to the cloud.

1. Management simplicity via policy-driven automation.
2. Fast recovery with instant access, on-prem to Azure. SQL Live Mount for near-zero RTOs.
3. Application mobility for cost-effective long-term retention, DR, or test/dev.

Office 365: Built for Scale and Security

1

Automate Protection that Scales with Your Needs

Rubrik Polaris automatically spins up more compute to scale in-line with your Office 365 needs.

2

Control Where Your Data is Stored

All data and metadata remains in your Azure account for ultimate security.
