A donut chart illustrating the distribution of Power BI Pro licenses across various countries. The largest segment is red, representing 9 licenses from the United States. Other segments include light blue (3), dark teal (2), black (2), yellow (1), grey (1), light blue (1), orange (1), purple (1), and dark green (1). A label 'POWER BI PRO 1' points to one of the small segments.

Email Client	Percentage
OutlookMobile	55%
Web	35%
SMTP	10%

Let's make it someone else's ~~problem~~ benefit!

DISCLAIMER

The Secure Score does not express an absolute measure of how likely you are to get breached. It expresses the extent to which you have adopted controls which can offset the risk of being breached. No service can guarantee that you will not be breached, and the Secure Score should not be interpreted as a guarantee in any way.
